# OPERATING INSTRUCTIONS

"INDIVIDUAL FOULS/POINTS" CONTROL CONSOLE

Non-binding pictures

GENERALITIES
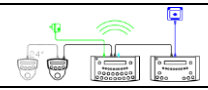

Scope of delivery

|	
"Individual fouls/points" control console ✓ This console enables to enter the individual fouls of the players in basketball. ✓ This console enables to enter the individual points of the players (Basketball / Handball / Roller-Hockey / Inline-Hockey / Ice-Hockey / Uni-hockey / Floorball / Soccer / Futsal). ✓ This console is powered by the main control console. It should only be connected to the STRAMATEL system supplied.	
2-meter flexible cable ✓ This cable enables to connect the control consoles to each other (5 pin-sockets on the control consoles). ✓ Use only the cable supplied by STRAMATEL.	

Data backup

|	
The match information is saved in memory in the main control console in case the "Individual fouls/points" control console is switched off.	

In case of new sports rules (USB key)

In case of new sports rules, the programme of the "individual fouls/points" control console can be updated using a simple USB key. In this case, a specific instruction for programme update will be provided with the USB key.	
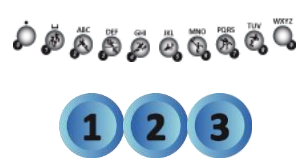

Functions of the main control console

Keys are numbered from 0 to 28

Icon	Function
ON/OFF symbol	ON/OFF
0 1 2 3 4 5 6 7 8 9	Entering of the numerical data
1 2 3	Points
Foul symbol	Fouls
C + RESET	Reset of the points and of the fouls (this function is available only when the main control console displays the pre-match timer)
C	Correction function (keep the key pressed and press a "point" or a "foul" key)

Language of the control console	
The control console is programmable in different languages.	
Make sure the scoreboard is powered. Connect all the control consoles to each other (the control consoles can be connected in any order).	
At this stage, the main control console should be off. Press the ON/OFF key of the "Individual fouls/points" control console until the console displays the welcome screen.	
Keep key **27** pressed for 1 second until the console displays the "Configuration Language" screen.	
Select the language needed with the key number indicated on the console screen.	

● DURING THE MATCH
